

Dear Parents (and kids),

The Kids' Ministry is attempting to make sure that our children at Northlake have a treasure house of tools at their command to help them grow and learn more about God's word. We feel that being able to recite and know the things on the lists included here will assist them as they grow in their knowledge of God's plan for their lives.

Each grade from kindergarten through sixth grade is being given lists to learn. These lists are cumulative, i.e., the first grade has their list plus the kindergarten list, the second grade has their own list plus the first grade list and kindergarten list and so forth. We know that initially some of the older children have long lists of things to learn. For this reason, we don't expect all of them to be mastered this year. The idea is to build on the previous year. We are hoping that by the end of six years, children coming through our program will know all of these things. Sometime during the month of May we will visit the classrooms to see just what skills can be put into our Treasure of Tools from each child in each grade level.

The Treasure of Tools list for each grade level is posted in the classroom and a booklet is enclosed.

As parents we suggest that you spend a little bit of time each week practicing and reinforcing these skills.

We hope that this is something that will be met with enthusiasm with the children. We know that it will depend on you, (in addition to our teachers) and we want to thank you in advance for your help.

The Kids' Ministry
